RE: Response to the Request for Supplemental Information from the Department of Toxic Substances Control (DTSC) Regarding Spray Polyurethane Foam Systems with Unreacted Methylene Diphenyl Diisocyanates (MDI)

Dear Ms. Jackson,

General Coatings Manufacturing Corp is a member of the American Chemistry Council's (ACC's) Spray Foam Coalition (SFC).

In response to the California Department of Toxic Substances Control's (DTSC's) Request for Supplemental Information, **General Coatings Manufacturing Corp** respectfully refers to the submission of aggregated data made by ACC on behalf of its members, including **General Coatings Manufacturing Corp**.

These data include confidential business information (CBI) for **General Coatings Manufacturing Corp** that is subject to trade secret protection. See, e.g., 22 CCR § 69509.

Thank you for this opportunity to provide this Supplemental Information to DTSC. General Coatings Manufacturing Corp looks forward to continuing discussion with DTSC.

If you have any questions, please do not hesitate to reach out to me at Will@generalcoatings.net.

Regards,

Will Lorenz
President
