Subject: STYROFOAM™ CM Series Spray Polyurethane Foam Discontinuation

Dow Building Solutions Customers

This letter is regarding the discontinuation of STYROFOAM™ CM Series Spray Polyurethane Foam for sales in United States by December 2019. DuPont will not be selling STYROFOAM™ CM Series Spray Polyurethane Foam in the transition from Dow Building Solutions to DuPont Performance Building Solutions. Please work with your local sales representatives on any confirmed orders that we will accommodate until inventory runs out or December 2019, whichever comes first.

STYROFOAM™ CM Series Spray Polyurethane Foam has been a valuable component in our THERMAX™ Wall System, contributing to the overall thermal, air, and water barrier performance. With the integration of DuPont Tyvek® portfolio of products, different options for the new DuPont [Commercial Wall²](#) and refreshed [THERMAX™ Wall System](#) warranties are available. Technical inquiries can be directed to 1-866-583-2583 to determine the right solution for your project.

Please contact your local DuPont sales representative should you have any questions or want further details.

Sincerely,

A handwritten signature in black ink that reads "Victoria".
